

## **ERASMUS+ call (KA2 Strategic Partnerships)**

<http://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:C2015/347/06&from=EN>

We are in the process to submit a proposal in the national ERASMUS+ call (KA2 Strategic partnerships) that we intend to be submitted early February 2016. At this stage we have on board except the Hellenic Parliament, the Ministry of Education of Cyprus, the Montenegrin Parliament, the Hellenic National Research Centre (Historical Studies) and UNYT from Albania.

The major themes are democracy workshops in parliaments, strengthening the active participation and European Union citizenship of young people through education tools and IT means. Our proposal intends to create a **Strategic Partnership in the youth field** to support the empowerment, active participation and civic engagement of young people under and over 18 years old in each beneficiary country.

For this reason we support exchange of good practices in the field of democracy education and youth participation (tutors, teachers, students)

- Our main horizontal priority is based on inclusive education training and youth.
- Our specific priority is the youth sector, promoting empowerment with a special focus in the active citizenship of young people.

I think that the experience of PADEMIA partners will give an added value in our proposal, so we invite you to join us in our proposal. The initial budget we can allocate to the respective partner is up to 50K covering exchange of tutors, content production, meetings, travel, dissemination means.

If you would like to participate or get more information, please contact **us until 11 January via [dkoryzis@parliament.gr](mailto:dkoryzis@parliament.gr)**. We would also be happy to send our concept paper as it stands today.

## **Horizon 2020 call “REV-INEQUAL-05-2016: Inequalities in the EU and their consequences for democracy, social cohesion and inclusion”**

<https://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/topics/2299-rev-inequal-05-2016.html>

We are planning a proposal to the Horizon 2020 call “REV-INEQUAL-05-2016: Inequalities in the EU and their consequences for democracy, social cohesion and inclusion”.

For this, we are searching for PADEMIA partners which would like to join in our proposal as a potential WP leader especially in the field of social & political sciences and the analysis of democratic deficits.

Our project is focusing on the young people (point c of the call) and the proposal will consider and evaluate the political ramifications of increasing social and economic inequalities and polarization for democracy in Europe and the types of policy interventions available, including democratic revival and participatory and inclusive innovations. Whenever relevant, a comparative work on case studies among different European countries will be offered.

For this reason we need an experienced partner in the following fields of research:

1. Political context
2. Core Democratic principles
3. Inequalities social analysis

Way of addressing the needs this call:

-Through the empowerment of young people by using the informatics tool application (binary questions application and debate platform) for the increase of democratic participation

-Through research on different levels, topics and perspectives using the filtered data provided by the informatics platform tool according to the capacities and inclination of the researchers

Should you be interested in participation or would like to receive more information, please contact us **no later than 11 January 2016 via [dkoryzis@parliament.gr](mailto:dkoryzis@parliament.gr)**
